FIG. 1

2 / 5

FIG. 2

Diagram 31 shows a top view of a circular substrate. The substrate is defined by a large outer circle. Inside this circle, there is a grid of small circles representing holes. Five larger circular openings are arranged in a cross pattern (top, bottom, left, right, and center) within the grid. A label '31' with an arrow points to the outer boundary of the substrate. A label '2' points to one of the small holes in the grid. A label '5' points to one of the larger circular openings.

Figure 1 is a schematic diagram of a circular substrate 21. The substrate contains a plurality of circular openings 2. The openings are arranged in a circular pattern. A central opening 8 is surrounded by a ring of openings 7. The outermost ring of openings 2 is labeled 5.
